

Specialty care might be overwhelming. The cost may not have to be.

About Specialist Management Solutions

Specialist Management Solutions (SMS) is here to help members find solutions for specialty and outpatient surgical care, from preventative screenings to addressing pain. Using a concierge model, SMS Advocates serve as a single point of contact and are available to help navigate the healthcare space, including evaluating care options, locating a provider, and scheduling consults, surgeries, procedures and follow-ups.

With support of the below specialties, SMS is available to members at no additional cost as part of their healthcare plan.
